

FOX FINANCE V2

WHITEPAPER

2023

Our story

Fox Finance, the community-driven multimedia blockchain society.

Fox Finance is a project that was launched by an idealistic law student who had dreams of using crypto to make a positive difference for the planet. His vision was for a decentralized project that rewarded community members for doing ethical activities in the real world, to help endangered species and fight global warming. Soon, community leaders emerged and joined the team. A group of investors, educators, parents, and tech wizards became leaders of the project who share its values and hopes for a better world. Contributing their passion and ideas, they created a professional, decentralized leadership organization called the FoxDen Nexus. They earned the founder's trust and were given the keys to the project. This Core Team moved headquarters to crypto-friendly Mongolia and relaunched the Fox token. They will empower Fox holders to share their ideas and proposals, by organizing referendums and elections for community representatives. Fox Finance continues evolve and has become a community-driven multimedia blockchain society with a charitable mission and business enterprises that support our goals.

Mission Statement

At Fox Finance, our top priority is creating a platform where you can participate in making the world a better place. Before we even began to tackle topics like tokenomics or marketing plans, we asked ourselves questions about what we represent, what will remain essential to our identity as we grow, and how we can reward FOX holders for their part in saving our planet. As the name suggests, when we initially approached this idea, we knew we wanted to work towards protecting foxes as well as the other 41,415 animals found on the endangered species list. Due to the extent of man-made pollution, habitat destruction, global warming, poaching, and more, a majority of these incredible creatures are already teetering dangerously on the edge of extinction. We recognize that the animals who share our world serve as a barometer for its health, and so we set our sights on how to tackle the larger issues at hand. None of us, foxes included, have a chance at long term survival if drastic measures are not taken to reverse the effects of climate change. This is why we have devoted ourselves to giving individuals the power to protect and preserve our environment. We at Fox Finance will not rest until we have created a platform which can be used as a robust and dynamic tool in the fight to maintain this planet for generations to come.

This platform involves the creation of innovative multimedia projects that entertain, educate, and enlighten people. By using cutting-edge technology, we are developing a global community and revenue streams to support our charitable goals. We are guided by the ethics of decentralization and democracy, with collaborative decision-making, transparency and community empowerment. Together, we can make a difference.

Company Overview

Fox Finance has multimedia business operations and investment strategies that fund our charitable projects and donations.

FoxInAction

FIA is the charity mission of Fox Finance, including donations and contests that reward Fox hodlers for taking action in the real world to support our goal of fundraising for endangered species and fighting global warming.

Multimedia Platform

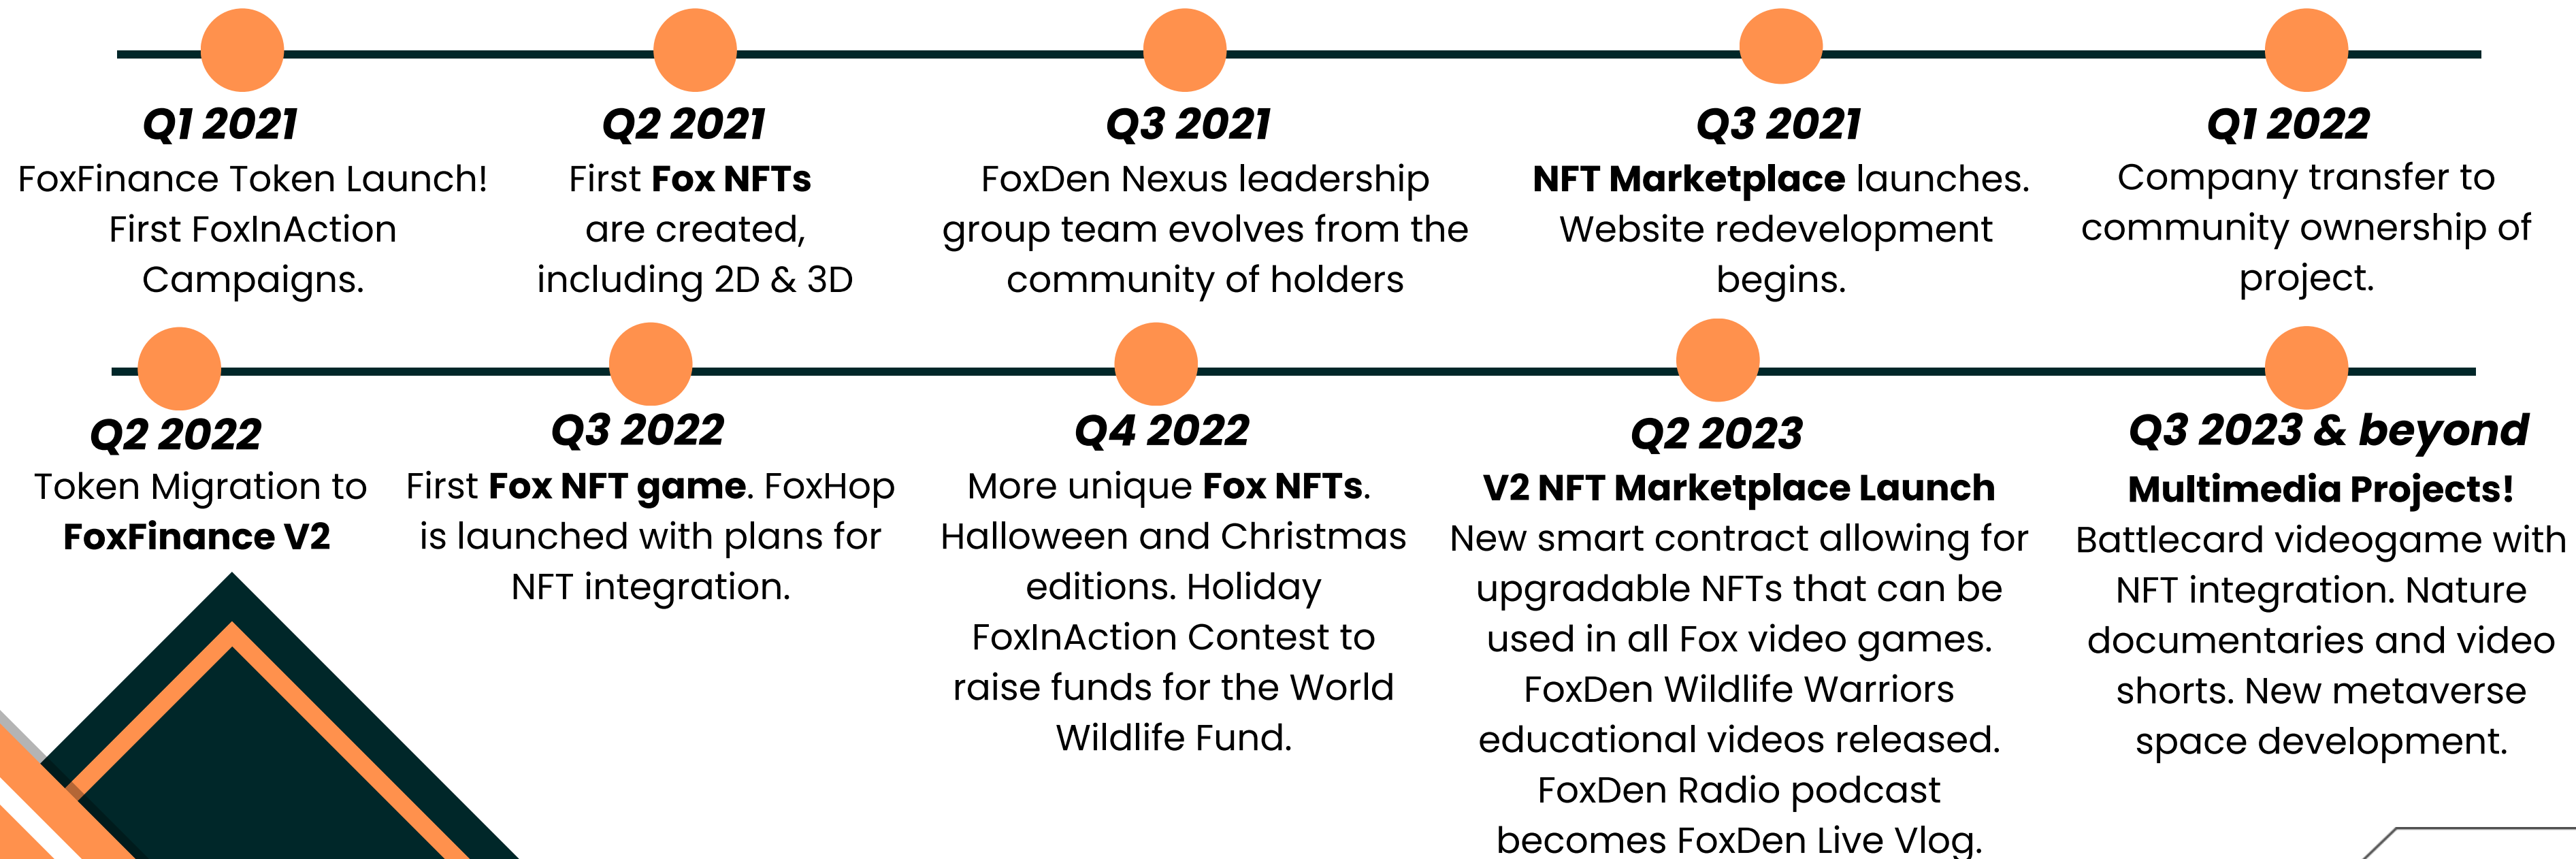

Fox Finance creates engaging, innovative multimedia content at the frontier of technological development. V2 of the Fox NFT Marketplace was launched in June 2023, featuring Smart, upgradable NFTs. FoxNFTs can be used in our videogames, such as FoxHop and a battlecard game (in development). Fox Finance also creates educational content such as video shorts and nature documentaries. Team leaders give regular updates on FoxDen Live, the video blog featuring project updates, interviews, and industry news.

Token & Investments

The Finance part of the project includes the Fox Finance V2 token on the Binance Smart Chain. We also participate in yield farming and other investment strategies on the blockchain in order to fund our charitable projects. The Fox Core Team has locked liquidity to ensure the long-term sustainability of the organization.

Roadmap

Project Development Timelines for Fox Finance

Marketing Strategy

Environmental Multimedia

Fox Finance writes environmental news articles, educational video shorts, and nature documentaries to raise awareness of endangered species and draw attention to the project.

SEO Optimazation

Search engine optimization is increased through website strategies, blog articles, comments and cross-promotion with other projects.

FoxDen Live Video Blog

FoxDen Live, featuring TheDude and Veyora. Interviews with leaders in the blockchain industry & environmental organizations. Project development updates, sneak previews and more.

Cross-Promotion

Promoting Fox and our products in AMA groups, social media and to the community groups of charities that receive Fox donations.
